OVERALL ENERGY

You're entering a period where you are stepping up as a leader. Your wisdom and inner instinct are highlighted here. Listen to what your inner voice is telling you or where it's urging you to take action. You know what it takes to accomplish your desires and give form to your intentions. The key here is to be true to who you are because it's modeling the way forward for others.

WHAT YOUR GUIDES WANT YOU TO KNOW

Divine inspiration is flowing into your life right now. This is a time to explore new ideas, possibilities, and perspectives. You're being called to step up in all areas of your life. Take advantage of this energy by planning, strategizing, and brainstorming your next steps. There's a lot of movement and momentum building up. However, realize there's a need for patience and balance. Moderation is called for so that you can nurture all areas of your life. Give yourself time to recharge, feel into the new, and see what else is possible. This may be something you've been wanting for a long time.

GUIDANCE

There's a major transformation or initiation in front of you. While it feels exciting, there's also a bit of fear and overwhelm surrounding it. Change can be scary. But know you're being called to fully embrace this change. Be honest with yourself about what it is you want for your life and have the courage to step towards it. Shed your inhibitions and take a leap of faith into the unknown. Just be a little patient and let things unfold on their own timetable. You're still healing the past and this is a chance at renewal. Experiment with new ideas and possibilities.

WHAT'S UNFOLDING NEXT

It feels to me that you're not quite ready to fully commit to this new opportunity as things still need to come together. There might be a block or challenge that comes up which creates a bit of distance. Look at it as a way to nurture yourself and enjoy the present moment. You don't want to be too attached to the outcome. If you move too quickly or too forcefully, things might fall apart before they come together.

Everything that is happening is part of the process. What's important is to stay present and make small, consistent steps forward. Take your time to explore what's in front of you and pay attention to the details. By doing so you'll nurture your intentions and help them blossom.

PARTING MESSAGE

This is a time to question everything and let go of anything that is not in alignment. Things aren't always as they seem so take the time to discern what's true to you. Let go of anything that is no longer serving you and take baby steps to create harmony in your life. Speak your truth and don't hold back.

AFFIRMATION:

"I trust myself to move into the unknown while creating harmony within".

QUESTIONS TO PONDER OR JOURNAL ON:

- How am I being called to step up right now?
- How can I move forward while still maintaining balance?
- What is not in alignment and needs to go?
- What baby step can I take next?
